

Integration Playbook

K. Scott Allen

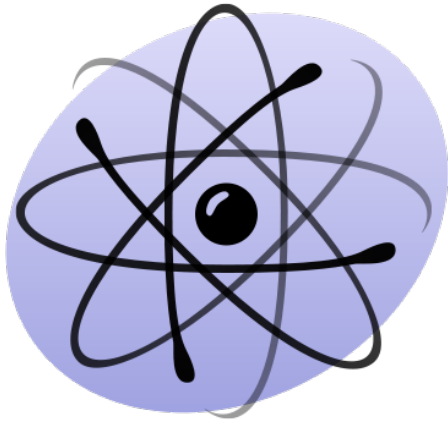

@OdeToCode

Integration

1. Wrap entry points with services
2. Look for custom directives opportunities
3. Think “Angular”
 1. Separation of concerns
 2. Binding, directive controller communications

jQuery Integration

1. Wrap plugins using a custom directive
2. Include jQuery.js before Angular.js
3. Don't forget to use `$apply` with events
4. & binding with parameters requires `{ }`
